

At **Best** , we offer a complete line of casket display systems.

### **CD 4000** **Two Tier Casket Display System**

Best's top of the line, two tier casket display system of rugged formed steel construction is the industry's premier statement of subtle elegance in the casket display room. When fully extended, our foolproof, scissored dolly is automatically gauged for the proper distance and clearance to eliminate annoying and costly scratches from the casket above. Four 3", heavy duty ball bearing wheels roll effortlessly in their own steel tracks, making the CD 4000 the ideal answer for showrooms with or without deep pile carpeting. Bottom tier accepts caskets up to 25" tall. Top tier and dolly easily support up to 400 pounds. Available in black or almond color powder coated finishes. Minimum assembly required.

**CD 2000**  
**Two Tier Casket Display System**

CD 2000 - Craftsmen at Best have designed this two casket display system featuring an angled top tier support to help clients get a better view of the casket's exterior and interior. Molded from heavy duty tubular steel, this system is ideal for shows and displays. Bottom tier accepts caskets up to 25" tall. Top tier and dolly easily support up to 300 pounds. Available in black or almond color powder coated finishes. Minimum assembly required.

**CD 2500**  
**Casket Display Dolly**

CD 2500 - This optional casket display dolly is for use with the CD 2000 Casket Display System. Four 3", heavy duty ball bearing wheels are ideal for hard surface floors or commercial carpet. Rolls in and out effortlessly. Available in black or almond color powder coated finishes.

**CT 1000**  
**Casket Truck Display System**

No funeral home casket showroom is complete without Best's uniquely designed Casket Truck Display Series. Constructed of lightweight yet durable tubular steel, the sleek and simple design will withstand years of heavy use. Soft, rubber bumpers attached to the solid welded construction frame guard caskets from scratches and shifting during transit. Four 5", heavy duty ball bearing wheels give this truck easy maneuverability for better display effectiveness. Easily supports up to 500 pounds. Available in black or almond color powder coated finishes. Minimum assembly required.  
46 1/2" Long x 22 1/2" High x 18 3/4" Wide
